"No Glass with All the Class"

The Eze-Breeze Panel

Custom made to fit your
Screen Room • Porch • Vestibule • Gazebo
Balcony • Cabana • Breezeway

For More Enjoyable Outdoor Living

With Weatherwall, you'll never feel closed in

Weatherwall eliminates foul weather days

The Three Season Room

Weatherwall keeps that outdoor, close-to nature atmosphere

Eze-Breeze Sliding Panels give your outdoor living area that breezy, screened porch feeling, while providing protection from the elements with lightweight, easy to operate vinyl-glazed panels. The panels tilt in for easy cleaning and reduce glare, solar heat gain and filter 99% of harmful UV rays. Heavy-duty aluminum frames hold both screens and sliding panels in place.

Our Eze-Breeze Vertical Four Tracks adjusts in seconds to open up 75% of the window area to the outdoors. Eze-Breeze Side Sliders provide floor to ceiling views and ventilation. Our 10 mil Elasto Vinyl glazing is lighter in weight than glass, making panels easy to operate and remove.

Season to season, you'll get more comfort and enjoyment from your outdoor living area when it's protected with PGT-Eze-Breeze Panels by Weatherwall Enclosure Systems. Versatile, Rugged and Attractive.

Buyer Beware: Avoid these problems!

Poorly constructed frames with jams that cause window vents to slip down and fall out of tracks.

Panels with compression springs give unequal pressure causing issues in the future.

Vinyl tracks that chip, bind and are difficult to clean.
